

To whom it may concern,
Please reject petition 04-160. As a satellite radio subscriber, I pay monthly for a service that should NOT be influenced by the NAB. They have no right at all to tell me what I should or should not listen to. I do not listen to FM radio and therefore shouldn't be subject to their influence.

Once again, please allow those of us who are paying for satellite radio to continue to enjoy the benefits associated with it. The paying public should NOT be bullied by FM and AM broadcasters who are feeling threatened by a little competition.
